

Comprehensive care and supported services for treatment planning include:

- Social Work
- Case Management
- Medication Management
- Psychiatry
- Nursing
- Medical Services
- Individual and Group Counseling

Primary Care and Pharmaceutical Providers in our region provide essential medical services. No easy task, considering the volume of patients and the obligations and constant demands placed upon you. A priority of Catalyst Health is to support your role as part of the care team for shared patients and collaborate to ensure those in need of our services can be referred in a timely and collegial manner.

**CATALYST HEALTH**  
ADDICTION TREATMENT & RESOURCE CENTER

Complete Comprehensive Treatment for Opioid, Alcohol, Methamphetamine and Other Substance Use Disorders.

Established in 2013, Catalyst Health is a multi-disciplinary practice providing services in Northeast Tennessee and Southwest Virginia. Our providers specialize in treating people with more than one substance use disorder. While opioid use disorder continues to plague our communities, alcohol, methamphetamine, and benzodiazepine use play an ever-increasing role in causing harm and death.

Together we can help each patient recover and create positive change in our communities.

Recognizing substance abuse disorders (SUD's) is not always easy or obvious. SUD's know no socioeconomic boundaries, and anyone can suffer from an SUD. From the unfortunate person who is destitute and homeless to high functioning white collar professionals. They are our friends, neighbors, co-workers, and family members. Their path to recovery will likely start here.

Together we can make  
a difference.

Catalyst Health is proud to partner with the following insurance providers:
